## "Can't Quit Coffee"

Well, that is humiliating. It's hard enough to be a slave, but infinitely worse to acknowledge the desperate condition where individual will is gone: However, there is nothing easier if you go about it in the right way. And nothing that will pay bigger dividends in health, comfort and money-making capacity.

Perhaps coffee keeps you awake nights, dulls your brain when you need the sharpest edge on your wits possible.

It's the steady, clear, original thinker whose judgment is wide awake during business hours that makes the well-paid doer of valuable work—the chap who forges ahead on his own initiative-the successful money-maker.

If coffee gets in its deadly work for only one hour of your business day, that may be just the time when opportunity is calling the loudest. But if your judgment is cloudy from caffeine-poisoning-coffee-drinking-you may not see the opportunity or not be able to swing things your way.

To be in the best trim all the time, drop coffee entirely and use well-made Postum. By "well-made" is meant, as the directions say, boil your Postum at least 15 minutes after boiling begins. Have it dark and rich (it won't hurt younot even a baby) and get the fine, snappy flavour and full-food value.

Let Postum, in a word, help you quit coffee and start you on the road to every-day comfort, rousing good health and quite possibly a fortune.
